

NICK LANE

Working in post-production for over 10 years has helped me to hone my skills, enhance my attention to detail and move forward technologically and artistically. I have been lucky enough to work on feature films, TV advertisements and promotional content for some of the major film studios. In 2014 I edited an award winning TV commercial for the Broadway musical Once, working with a leading theatre marketing agency. Other highlights include producing TV commercials (including filming and editing products/packshots) and behind-the-scenes documentaries for fashion & lifestyle brands. With recent developments in aerial cinematography and photography, I completed my NQE to commercially fly a Drone and more recently experimenting with 360° / VR content for BBC's R&D department. I am passionate, enthusiastic, creative and open-minded, with a positive outlook.
